

From the desk of the Supervisor

Dear Parents,

A warm welcome to all our children and you! The academic year was ushered in with great enthusiasm shown by tiny tots who wanted to know about their new classes & teachers.

In a week into the year, they settled down and are looking forward to a new experience. The children are enthused about classroom activities and outdoor play in right earnest.

In order to inculcate healthy eating habits in children, this year, we have introduced 'fruit time' where children carry a small portion of fruit from home to be eaten in school daily. Children are relishing it and within a month, we are happy to see them readily eating & completing the fruit they bring.

Strong teacher-parent teamwork has always been our USP and we look forward to this partnership for the New Academic Year.

We will keep you posted as usual about the numerous activities and events on the floor.

- Ms. Sonam Shah

Hustle Bustle on the floor...

It was a fun filled summer where children learnt exciting new things.

International Jugglers Day

A day that celebrates the skill of juggling and talented jugglers - juggling is a physical skill involving the manipulation of one or many objects for recreation, entertainment or sport. Students can start acquiring pre-juggling skills in preschool by learning to toss and catch thereby learning to balance, follow rhythm, coordinate their motor skills, improve focus, dexterity and creativity.

Children were spellbound watching a juggler's show with their friends, while some tried their hand at juggling as well!

Look Alike Day

A fun day invented to celebrate identical twins, clones and anyone who looks like you! Children from Nursery to Sr. Kg did just the same!

They came dressed up identically, did same activities and shared same snacks with their look alike!

Straw Hat Day

Straw hats have been found in almost every culture throughout the world, with different styles & techniques and are known to be flexible in their use - loosely woven straw hat help to protect from the sun letting the head breathe where as a tightly woven straw hat helped you from rain! Traditionally made from wheat straw to exotic Baku Straw (hat made from stalks of Talipot Palm), it till date makes a wonderful addition to your wardrobe!

Children celebrated Straw Hat Day to beat the heat and add a bit of flair to their floral print attire for the summer party!

They were amazed to watch actual making of straw hats. As a special treat, our young chefs got a chance to make delicious bhel with raw mango and relished lip smacking ice cream.

The more I see, the more I know...

Shadow Fun

Jr. Kg and Sr. Kg children had a fun-filled time out in the sun as they observed and traced their friend's shadows.

Nature Walk

To promote awareness and appreciation for Earth's environment, Sr. Kg children celebrated Earth Day by going for a stroll in the Lion's Community Garden.

Department of E.C.C.Ed.

The E.C.C.Ed. trainees successfully completed their course and proudly displayed the teaching aids made for various topics, puppets, follow up activities and games.

They attended their Convocation Ceremony and Campus Interviews. We wish them good luck for their future endeavours.

Making a list of circular objects

When Sr. Kg C class was making a list of circular objects to stick in the Scrap Book, someone said 'moon!' Aarish Sreekanth immediately quipped, "that's not always circular!" The class donned their thinking caps to list down more circular objects.

Twelve most fun activities you can do with children

- Asia Citro

A fun, educational environment for children can be created at home too. Here are some sensory play activities:

- 1) Safe (and edible) glowing water for bath
- 2) The magic foaming dough snowman
- 3) Safe and edible miniature floating beads
- 4) Rainbow soap foam
- 5) Elephant toothpaste
- 6) Rainbow foam dough
- 7) Polka dot slime
- 8) All - natural glowing play dough
- 9) A rainbow ice tower ready for excavation
- 10) Magic puffing snow
- 11) Painted salt sculptures
- 12) Coloured beans that are fun to play and create things with

Health Tip

Five easy ways for our young ones to beat the heat

1. **Hydrate their body:** Make them drink at least 8-10 glasses of water/ day. Parents should provide fresh juices, coconut water, buttermilk or lemon juice as refreshments to their kids as they replenish the fluids that are lost in sweat.
2. **Keep kids out of midday sun:** try to keep your kids out of direct sunlight especially during peak hours from 12-4 pm and instead engage them in indoor activities during that time of the day. Evenings are best for recreational activities, especially for kids playing outdoor games.

3. Dress children in light coloured cotton fabrics
4. **No junk food:** Avoid making your children eat a lot of spicy junkies like pizza, pasta and burgers. Instead go for fresh fruits like watermelon, muskmelons, Chickoo and kiwis as they have antioxidant properties and water content which helps in preventing dehydration.
5. Let them eat light and small frequent meals.

Staff

We take this opportunity to welcome Ms. Mokshada Mehta and Ms. Sneha Doshi on board whilst we bid farewell to Ms. Sheetal Vora.

The month of June drip drops with...

| Date | Day | Level | Event |
|------------------|-----|-----------------|------------------------|
| 3 rd | Sat | Playgroup | Orientation |
| 5 th | Mon | Playgroup | Academic year begins |
| | | Nur to Sr. Kg | School reopens |
| 9 th | Fri | Playgroup | World Doll Day |
| 21 st | Wed | Nur | World Music Day |
| | | Jr. Kg & Sr. Kg | International Yoga Day |
| 26 th | Mon | All | Holiday - Ramzan |
