

Hustle bustle on the floor...

Our little ones were thrilled & excited through the months of November & December for various events

Origami Day

When you fold a piece of paper, you're essentially changing the memory of that piece. - Eric Demaine

Origami is the art of paper folding which originated from the Japanese culture. Sr. Kg children celebrated this day by learning various paper folding techniques and made a cute paper dog for themselves.

Rhyme Recitation

Rhymes help children understand & learn about different sounds and develop

early literacy skills. Jr. Kg and Sr. Kg children presented a rhyme in class doing actions and using various props.

Picnic

It was a fun filled time for Jr. and Sr. Kg children. They enjoyed the bumpy slides, a maze of tunnels & barrels and a 4D movie with their friends and teachers at Smaaash Junior.

Nursery children had an exhilarating time with intergalactic friend in portal jump, ball pool, wonder sand and balloon attack at Xeno's

Play Space.

Movie time

As part of Children's Day celebration, Nursery to Sr. Kg children were enthralled as they embarked on a quest full of thrill, laughter and adventure while watching the movie 'Small Foot'. Playgroup children were glued to their seats as they watched the movie 'Rio'.

Dept. of E.C.C.Ed

The trainees, on successfully completing their course, conducted an exhibition to display their teaching aids on various topics given to them.

They presented a skit 'The Day When Crayons Quit'.

They attended their Convocation Ceremony and Campus Interviews. We wish them good luck for their future endeavors.

On our way back from school picnic in the afternoon, Vaarin Gindra (Jr. Kg D) asked, "Why doesn't the sun move behind and be with other vehicles? Why it is coming with us?"

Ask your child this when they say (s)he is BORED...

- Have you...
- Been Creative?
- Outdoors Play?
- Read a Book?
- Exercised 20 minutes?
- Done something helpful?

Tips to stay healthy through the winter...

1. Get enough sleep - a good night's sleep makes everyone productive and keeps our immune systems operating well. Younger kids should get 10 hours of sleep per night.
2. Eat well - encourage your family to eat bright coloured fruits and vegetables - ideally 2 fruits and 3 vegetables per day during meals and

snacks.

3. Stay active - kids are supposed to get at least 60 minutes of physical activity per day. Involve them in various rigorous activities.
4. Wash hands - hand washing - regularly and correctly can dramatically reduce much of exposure to viruses.
